ISOI
INFRASTRUCTURE SCHOOL OF INDIA

SAFETY SUPERVISOR EMPOWERMENT PROGRAM

1ST BATCH
Starts 28th Sept 2025

UPSKILLING INDIA'S INFRASTRUCTURE WORKFORCE: ROUTE TO VISION 2047

India's infrastructure sector is poised for change, with targeted upskilling to bridge the skill gap. Finance Minister Nirmala Sitharaman highlighted the need to prepare the workforce for a shifting economic and tech landscape.

GET CAREER-READY IN 4 MONTHLY CLASSES

▸▸ FAST TRACK YOUR PATH TO SITE SAFETY ▸▸

The Safety Supervisor Empowerment Program (SSEP) has been carefully conceived, designed, and developed for current safety supervisors and motivated individuals seeking entry-level roles in the construction safety domain.

Mr. Sanjay Kumar Singh
Chief Architect
of SSEP, SOEP, SMEP

SSEP is the foundation for a professional development series, which includes the **SOEP — Safety Officer Empowerment Program** for Safety Officers and the **SMEP — Safety Manager Empowerment Program** for Safety Managers, respectively.

The program aims to build and strengthen the key skills and practical capabilities of safety supervisors, enabling them to become valuable contributors by enhancing their on-the-job performance.

A core objective of the SSEP is to enhance the employability of aspiring and existing safety professionals by equipping them with relevant skills, practical knowledge, and job-ready competencies. It also aims to accelerate their career growth by preparing them for greater responsibilities and leadership roles in today's competitive and evolving construction safety landscape.
