## SAFETY SUPERVISOR EMPOWERMENT PROGRAM

1ST BATCH STARTS AUGUST '25

# GET CAREER-READY IN 4 MONTHLY CLASSES → FAST TRACK YOUR PATH TO SITE SAFETY →

The Safety Supervisor Empowerment Program (SSEP) has been carefully conceived, designed, and developed for current safety supervisors and motivated individuals seeking entry-level roles in the construction safety domain.

SSEP is the foundation for a professional development series, which includes the SOEP — Safety Officer Empowerment Program for Safety Officers and the SMEP — Safety Manager Empowerment Program for Safety Managers, respectively.

The program aims to build and strengthen  $% \label{eq:controlled}% \begin{center} \end{center}$ 

the key skills and practical capabilities of safety supervisors, enabling them to become valuable contributors by enhancing their on-the-job performance.

A core objective of the SSEP is to enhance the employability of aspiring and existing safety

professionals by equipping them with relevant skills, practical knowledge, and job-ready competencies. It also aims to accelerate their career growth by preparing them for greater responsibilities and leadership roles in today's competitive and evolving construction safety landscape.
